

School Outline

Name of School:

Gifu Prefectural Ogaki Sakura High School

School Address

〒503-0103

465-1 Kamijuku, Sunomata Town, Ogaki City, Gifu

School Mottoes:

To be Wise. To be Perseverant. To be Beautiful.

Our students are trying hard with studies and activities under the spirit of the three mottoes every day. The first graders are trying to understand the meaning of the school mottoes. The second graders are trying to make our three mottoes come true. The third graders are trying to enrich their school life by doing their best according to the three mottoes.

The Meaning of Our School Badge:

The outer circle of our school badge means the meek and correct character that helps students get along with everyone without biases. The three leaves symbolize our three school mottoes.

The Aim of Education at Our School:

1. To let the students consider how we should exist and how we should live, and to nurture the students who are full of correctness.
2. To educate the students to contribute to the local society and industries by using their technical knowledge and special skills.
3. To educate the students to win trust and respect from the society.

Our Four Departments

In order to fulfill our educational aims, we set up four departments as follows:

The Department of Life and Culture

The Department of Welfare

The Department of Clothes Design

The Department of Food Science

The Aims of the Four Departments

1) The department of Life and Culture

To educate the students to acquire necessary knowledge and skills for social leaders who can esteem the relationships to the local society and can lead significant life in the society.

2) The department of Welfare

To educate the students to be a competent social worker who can play an active part in the society of welfare where all the people live a happy life.

3) The department of Clothes Design

To educate the students to be a clothes design specialist who has a keen and creative sense of fashion and designs. And to help the students improve their skills through participation in as many design competitions as possible.

4) The Department of Food Science

To educate the students to acquire knowledge and skills which are necessary for competent cooking staff. And to help the students to acquire as many official licenses as possible by taking the certificate examinations.
