

2015 School Manifest

School number	School name
14	Motosu Shoyo High school

Educational goal	<p>1 Cultivate an understanding of the importance of educational activities and develop ambitious attitude toward self-actualization</p> <p>2 Establish conscious deliberation about values influencing choice of behaviors and create a richness of spirit</p> <p>3 Foster a spirit of self-reliance and independence</p>	
<Important Educational Points> Concrete goals prioritized for this year	Specific efforts and strategies to realize prioritized goals	Judgment of level of achievement, assessment criteria Evaluation index
1 We will strive to create engaging lessons which promote a positive and spontaneous interest in learning.	<p>① Through the effective use of the study handbook, study support, syllabus and tests results, we will establish good study habits and raise the level of understanding of classes.</p> <p>② We will focus on the situations of students making suitable educational lesson programs that are both tailored to their needs and that assure understanding and success. Through personal assistance based on individual interviews and tests analysis, we will create motivated learners.</p> <p>③ All students will be encouraged to meet scholastic achievement standards and will develop the will power to bring endeavors to successful conclusion. We value students that can finish what they start.</p>	<p>① Survey students mid-year to assess time spent preparing and reviewing for the course as well as comprehension of material covered in that course of study.</p> <p>② Use course evaluation by students and analysis of academic achievements on mock examinations through the year.</p> <p>③ Track participation levels in supplementary lessons. Through the use of mock examinations, progress and academic standing is tracked and comparative analysis against peers will be made.</p>
2 We will encourage student independence and will develop their sense of self-reliance and public spirit.	<p>① We will revitalize student council activities, school events and club activities and we will encourage students to be autonomous and independent. Through developing their public spirit, we will make students aware of being a member of society.</p> <p>② We endeavor to create a school where bullying isn't tolerated through early and precise response to any problems; through educational programs created to raise awareness of problems; and through student psychological care provided by the school.</p>	<p>① Use results and feedback from questionnaires conducted after school events by the student council. Track participation rate of club activities. Track problem behaviors caused by lack of public spirit.</p> <p>② Incidents of bullying and other trouble are tracked and analysis of those investigations is conducted three times a year.</p>
3 We will develop resourceful students who can set clear goals for their future and can move toward the realization of those goals	<p>① Academic support and counselling tailored to each student is available including supplementary after school and holiday lessons, essay and thesis writing guidance, and online home based classes.</p> <p>② We endeavor to effectively use guest lectures as well as career and academic counselling workshops to create students who can make academic and career decisions with confidence.</p> <p>③ Information regarding academic and career counselling will be furnished.</p>	<p>① The number of participants of supplementary lessons and online home-based learning are tracked. Fluctuations in the number of students using both are compared to previous years.</p> <p>② Use questionnaire and feedback results after school events. Use contents of the reports including students' impressions.</p> <p>③ Publish the academic and career paper "SHINRODAYORI"</p>
