(5) School Emblem:

Derivation: Our school is located at the base of Mt. Ikeda and the Ibi River basin. We made a design of them and the letter “High School” was placed in the center. Three lines extended from the far left to the upper and the bottom right edges symbolize students, parents, and teachers working together to make a school. The other three lines represent students trying to achieve our three ideals: intelligence, virtue, and health. These six lines radiated outward signify ongoing advancement and progress of our school.
