

Three Things About Me

My hobby is baking sweets. I can bake anything. For example, I can make pound cakes, muffins, and puddings. I don't bake for my self because I like to bake for my friends and family. which makes me happy.

My favorite food is green tea. I like it because it is bitter and sweet. When I am tired, I want to eat green tea sweets. When I order a drink I always choose green tea.

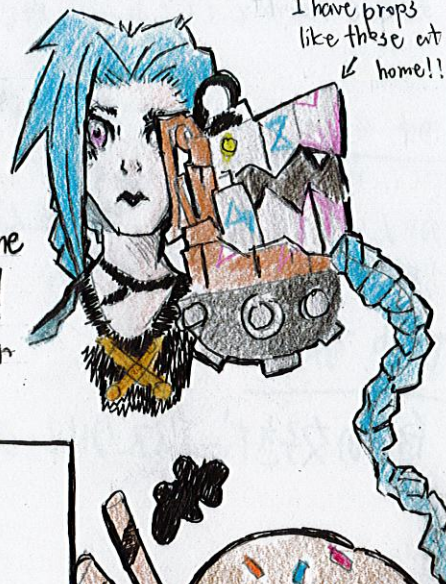

I want to go on motorcycle tour with my dad. I like motorcycle, so when I get my license, I would like to ride my own motorcycle, to a place with a nice view with my dad. My dad always tells me that he wants to go on a motorcycle tour with me. I want to make it come true, and it's become my dream.

Three things about me

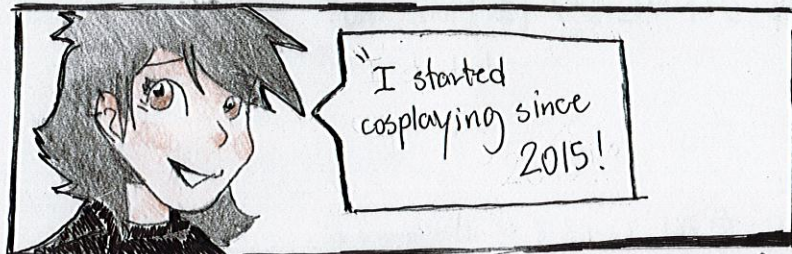

My hobby

My hobby is cosplaying characters. I've been cosplaying since 2015. My first cosplay was Marceline from a cartoon show. Cosplaying makes me happy because I like dressing up as my favorite characters! I also make the props, like the character's weapons or things.

I have the character's weapons!!

character props!!

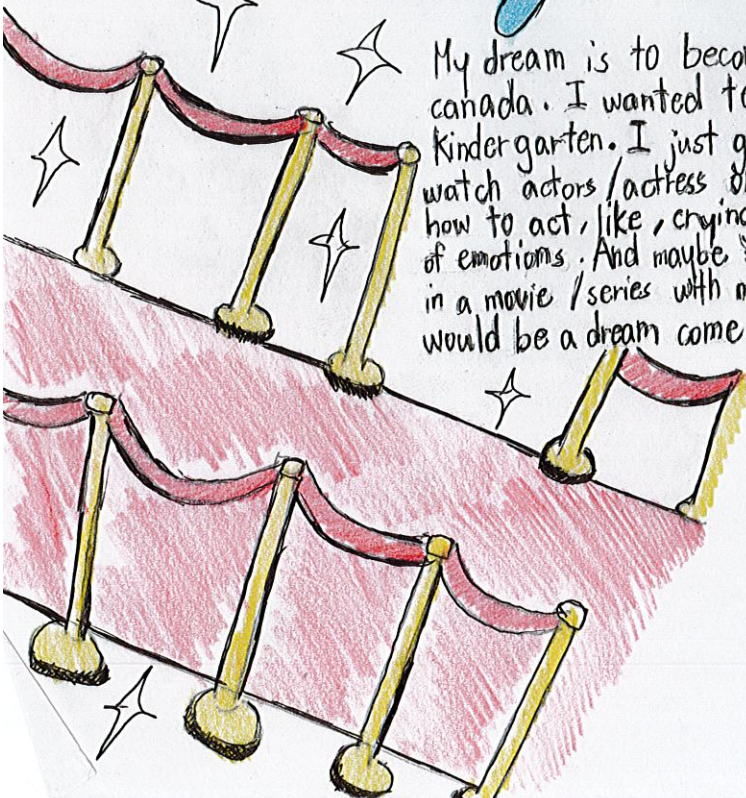

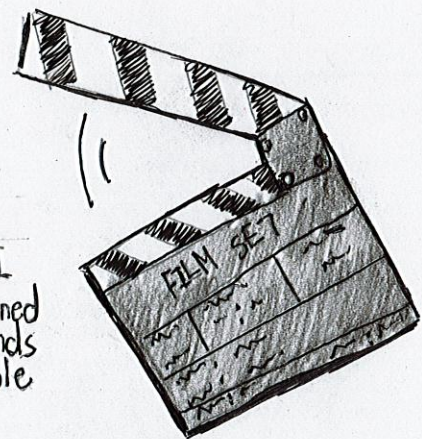

My favorite food

My favorite food is ice cream. Especially when it has a lot of toppings like cookies, nuts, sprinkles and many other more. I like it because the flavor is just so good and sweet. Even when during winter I still eat ice cream because I just really love ice cream.

My dream

My dream is to become a famous actress in Canada. I wanted to be one since I was in Kindergarten. I just get so inspired whenever I watch actors/actress on the television. I even learned how to act, like, crying on cue and practicing kinds of emotions. And maybe someday I get to play a role in a movie/series with my favorite actresses. That would be a dream come true.

Three Things About Me

Hobby

My hobby is listening to music. I like to listen to some pop songs, Filipino songs, Japanese songs and Kpop songs. It's making me want to sing along. Like when I'm alone at home, I start to sing by myself like I'm doing a concert. But I'm too shy to sing in front of many people.

Favorite Food

My favorite food is Korean spicy noodles. I know it's spicy, but it tastes so good to me. That I can eat it all day. The name of the noodles is "SAMYANG". And they have many types of flavors that I want to try! Even though, I get stomachache every time.

Dream

My dream is to travel alone. Traveling with family and friend is fun, but I want to travel by myself. Because I realize that "traveling alone" is the best style of travel that allows you to travel freely. For example, you can see what you want to see, eat what you want to eat, and do what you want to do. So in the future, if I have enough money, I would like to travel by myself somewhere in Japan and abroad.
