

## A Message from the Principal

Thank you for visiting our website.

Even though Mashita Seifu High School is the only high school in Gero city, it is rich with history and traditions dating back 95 years. It was originally established in 1924 (or Taisho 13) as Mashita Norin (Mashita Agricultural School). In 1948 (or Showa 23), we changed our school name to Mashita High School, and it was integrated with Mashita-minami High School into Mashita Seifu in 2005 (or Heisei 17). Since the establishment, many graduates have played important roles not only domestically but also internationally in various fields.

As a high school where students can realize their hopes and dreams, we are steadily achieving outstanding results in our effort to help students enter higher education or obtain qualifications and quality careers. In addition, students are performing excellently in club activities. For example, various sport clubs such as the girls' volleyball club, the soft tennis club and the track-and-field club have gained multiple awards for their extraordinary efforts. Both members of sport clubs and cultural clubs practice and work hard for the Tokai or even the national competition every day. We also place great emphasis on contributing to the local community. Based on these achievements, we reformed our courses of study this year to nurture students' survival skills for the world of tomorrow. In order to meet further demands from local residents and students, we promote Furusato Kyoiku, which is a program designed to foster local pride in students: I'm positive that this will lead to educated students that will lead the community in various fields.

Thank you for your continued support.
